

# SHERWOOD PARK FISH AND GAME ASSOCIATION

## April May—2016

Hello all and welcome to the spring newsletter report for 2016.

Good news is that renewed and new memberships were completed this year in a very timely fashion without the hassles and delays of the last couple of years with their glitches in computers and access cards. Job well done by the membership chair - Deanna Loewen - and the office staff. All new membership positions were filled by 7PM on the 1st of January. Make sure that if you want to renew your membership for next year that you do it as soon as possible -- watch for renewal messages starting in September of this year.

Lots of news since the last newsletter and I will pass some of it along to you. Current news is always discussed at the general meetings on the last Thursday of the month.

Bad news first -- unfortunately there are no trout in our fish pond. Something killed the fish in late summer/early fall and we haven't restocked it but we will be doing that as soon as the ice is gone and the fish are available. The dead fish that were found were all the larger ones and they all had holes in their backs which would point at great Blue herons as being the guilty party. We will be putting in a dye in the

water so that the fish can't be seen but they can see to feed. Let's hope it works.

The campsite improvements are looking great and ready for our campers to start using them again. There is no wood currently in the camp wood shed and I'm not too sure if there will be any before the work party in June. If anyone out there wants to cut down and buck up some of the standing or leaning dead trees please feel free to so. Just remember safety for yourself and others nearby. Any wood left in the wood shed or campsites will be much appreciated!

By the time this reaches your eyes there will be an improved archery trail with brand new, top end 3D targets to shoot at. Thanks to Al Keeler, our archery chair, for organizing all this and getting it done. Thanks also to all those that helped with the work getting it cleared. The trail is on land that we have an agreement with the Nature Conservancy of Canada with and they have given their approval for the improvements to proceed.

Users of the shotgun range will soon see another hand operated clay pigeon thrower. The usage that the shotgun range gets is very high and most of the users use the thrower rather than attending the Wednesday evening or Sunday afternoon organized electrical trap shooting. The lineup for the thrower should be helped considerably with this addition. Enjoy it and as always, be very aware of safety.

The club resolution for the problems that we resident waterfowl hunters face getting access to land because of waterfowl outfitters and guides was passed again at the last AFGA convention. I have been contacted by the minister of environment representative and Fish and Wildlife is very aware of the problem and will hopefully be doing something soon to help the situation. Time will tell.

Talking about volunteers -- I have collated the responses to the questions on the questionnaire that was sent to you with your renewal forms. We had a good reply to them with nearly a thousand people responding. Good going to all those that replied. There was good response to the volunteer questions with lots of people saying they would be showing up to the June work party. There was also good response from a number of people saying they would like a try on the executive.

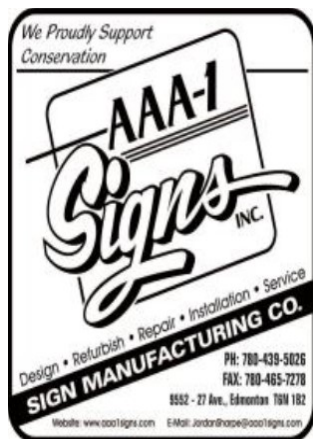

I will be giving all of those people interested in the executive a phone call and I should have spoken to you by the time this newsletter gets to you. Thanks for the input and the volunteer offers.

My thanks also go out to Lee Horne, Frank Lee, Dean Bromberger, Steve Witiuk, Doug Burton, Gaetan Richard, Lyall Kortzman and Richard Rothwell for their efforts in the plan-

ning the scoring of trophies and the Awards Night Banquet. A job well done.

That's all for now, but if you have specific questions that you would like an answer to please contact the chair for the area involved or contact myself by email or phone. Until next time, tight lines and straight shooting,

**Pat Harris.**

**Thank You Jordan Sharpe.** Advertisements are not normally carried in our newsletter. This ad acknowledges the support of club member Jordan Sharpe and his company in providing SPFGA with professionally designed signage at the Shooting Ranges, Campground and at the Entrance. Jordan's generous contributions have saved us thousands of dollars.

# 2016 SPFGA Executive

Election of the 2016 Executive was held December 3, 2015 at the Old Log Cabin, 50 Spruce Avenue, Sherwood Park. Thanks to all the old and new members that volunteered to serve and support SPFGA for another year.

# Big Game Summary Report from the 87th Annual Alberta Fish and Game Conference February 2016

Given the new provincial government and the most recent reorganization in the government departments that control big game policy, regulations and enforcement, it is not surprising that the government is taking time to rethink what it is doing and how it does it with respect to game management in Alberta. Overall we are seeing that habitat conservation is playing a more dominate role and a desire to re-establish communication

with stakeholders at the grass roots level using the internet.

The plans so far are to:

- Revise the Fish and wildlife Policy in 2016
- Begin work on the guide allocation policy
- Review the Provincial Wildlife Regulations by June 30, 2016
- Establish a new consultation model
- Address topical issues such as Sheep Management and Chronic Wasting Disease

That said, what has been done that will impact us in 2016. We know from last year that the game bird season was extended with a lower daily bag limit, a spring snow goose season was introduced and moose and elk weekly seasons were extended in the agricultural management zones. For 2016 – 2017 there will be increased opportunity for elk and moose and some restrictions in the Suffield elk hunt to address problems that occurred in the past. There should also be increased cougar hunting opportunities in 2016.

Changes to sheep hunting regulations to establish a full curl minimum size south of the Brazeau River and the introduction of a sand hill crane season need to be reviewed at the ministerial level and may or may not be approved in time for the 2016 season.

There wasn't any data presented on the 2015 hunting season other than to say that a mule deer taken in WMU 252 was diagnosed with chronic wasting disease. This is the farthest west the disease has been detected and the ministry is following up on it. The 2015 data should soon be available on the "mywildalberta" website.

*Continued on next page.....*

**Big Game Summary Report from the 87th  
Annual Alberta Fish and Game Conference.....continued**

In terms of consultation a new group has been set up to replace the previous Alberta Game Management advisory group (AGMAG). The new body is the Alberta Game Policy Advisory Committee (AGPAC). We only have one representative in that group, the president of the Alberta Fish and Game Association. No doubt he will do his best to represent us and we will do our best to communicate your concerns upward through our organization but if you want direct input you will have to keep an eye on the Albertarelm, mywildalberta, and Alberta Fish and Game websites and complete the survey requests as they become available.

We have been told to expect:

Elk and mule deer management plan updates by March 31, 2016.

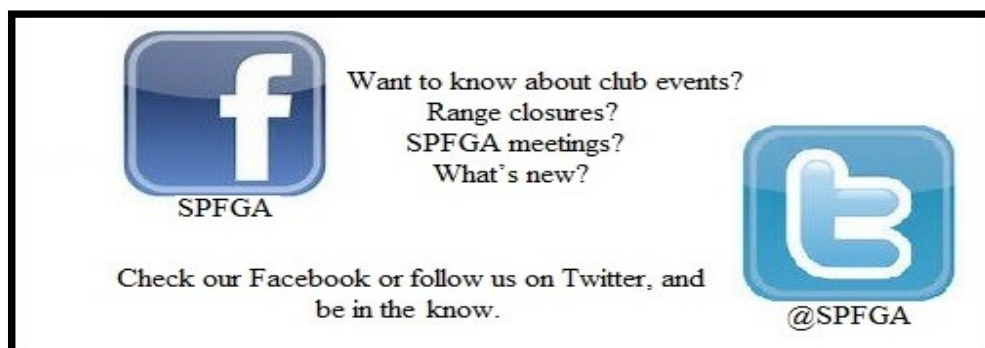

Draft management plan for black bears by March 31, 2016.

An update of the grizzly bear recovery plan to be made public for review.

Please take advantage of these opportunities to let your thoughts be known. We were told that hunting and angling contributes \$1.8 billion dollars to the Alberta economy annually and that the number of hunters has increased to approximately 128 thousand in 2015. Still, hunters are only 5% of the voting age population. Of those hunters, only 30% complete the Albertarelm harvest questionnaire to provide on the ground data that can directly impact the hunting opportunities we have available to us.

It was clearly stated that the government objectives were to conserve and protect habitat and conserve the species to ensure they can meet treaty obligations. Our needs and wants are apparently somewhere lower on that list of objectives. It was also stated that we need to maintain a critical mass to keep our hunting and fishing agendas on the political radar of those that we elected to represent us both federally and provincially. To do this we need to speak loudly enough, clearly enough and often enough to command the attention of our law makers. They say they want transparency and open dialogue. Please take every opportunity to give it to them.

**Doug Burton . Big Game Chair**

# Resilient Bighorn Project

As part of the Resilient Bighorn Project we are examining bighorn sheep response to climate and other sources of environmental variation by measuring annual growth rings (i.e. annuli).

To obtain annuli from the past we are requesting people who have male bighorn sheep heads, for which they know the year and approximate location of death, to allow us to measure annuli. The Province of Alberta has begun to measure horn annuli length in all bighorn sheep that are registered.

Annual growth rings are formed in mountain sheep horns when growth stops in winter. During the year of annuli growth, the cost to the sheep of maintenance and reproduction, relative to resources available, strongly influences the amount of nutrient and energy available for horn growth. The general influence of changes in environmental conditions on horn growth can be estimated made by comparing annuli length and circumference to environmental conditions (e.g. weather) and vegetation for the year of annuli growth. These results improve the ability to manage the environment to advantage mountain sheep and to better manage hunting.

Horn annuli data will be used by taking all annuli that grew in a given year, standardizing for the greater rate of growth in younger years, and comparing to climate data for that year. Vegetation characteristics of sheep ranges may also be compared with annuli where data from remote sensing allows. Our intent is to test the influence of these changes in the environment on the growth rates of horn annuli.

If you would allow us to measure the length and circumference of bighorn sheep horns in your possession please contact.

AFGA representative – Steve Witiuk at

All information submitted will be kept confidential.

Cooperating organizations: The Alberta Fish and Game Association, Wild Sheep Foundations, Alberta Professional Outfitters Society, Safari Club-Northern Alberta Chapter, and the Alberta Environment and Sustainable Resource Development.

# Archery—Report

My name is Al Keeler. My wife, Lori, and I have been in archery, especially 3D, for the past 14 years and previously were 3D directors for the Sherwood Park Archery club. I am pleased to have been asked to be the archery director for the Sherwood Park Fish and Game Association and hope to make it an eventful year. My plans for the coming year are to improve the 3D course, obtain some new 3D targets, attract some new archers to the sport and have a couple of shoots.

To start off, I am happy to announce the executive have approved the purchase of a number of new Rinehart targets which have arrived and are stored until the lanes are ready. We have approval to create some new shooting lanes on the 3D course and will increase the number of lanes to twenty. The course will be setup in the shape of a loop shooting at targets on one side and coming back down the other side. The lane distances will range up to 50 yards and hopefully provide some typical hunting challenges. If you are interested in seeing the proposed lanes, the trees have been marked with orange paint.

**We would really appreciate all those that are interested in helping out with a work party join us on Saturday, April 9th starting at 9:00 am, weather permitting** (snow or pouring rain) otherwise it will be the same time on Saturday, April 16th. The plan for the day is to clear the target and access lanes, cut up and clear all the fallen trees along the paths, clean up all debris, and set out the targets. We will need chainsaws, pruning shears, gloves, a couple heavy hammers, rakes and lots of muscle. Hotdogs and pop will be provided.

**MAKE SURE TO BRING YOUR BOW** (arrows with field points only) **SO WE CAN BE THE FIRST TO TRY OUT THE FINISHED COURSE!!!**

**SPFGA Archery is proposing to have a members' 3D shoot on Sunday, May 15th.** We will look at having another shoot in August. Watch for details on the website and information posted at the range.

At the present, there are no guidelines for using the archery range. For safety purposes, a list will be posted at the archery building and at the start of the 3D course. No broadheads or practice broadhead usage will be allowed anywhere except the sand pit. This is located on the right hand side of the archery field. You are welcome to bring your own broadhead target if you prefer. For the crossbow enthusiasts, the executive have approved the use of crossbows on the 3D course. Hope you enjoy. Continued next page....

## **Archery Report Continued.....**

For those getting ready for bear hunting season, a cheap broadhead target can be made from the blue 2'x 8'x 2" styrofoam insulation panels you can get from the lumberyard. Cut the panel into 4-2'panels and duct tape together to get a 2'x2'x8" block. This arrangement will easily stop arrows from bows with draw weight up to 50 lbs. If shooting higher poundage, add a couple more panels.

Arrows shot at target butts and 3D targets are stopped by friction. Using an arrow lubricant will make arrow removal easier and extend the life of the targets. There are different types of arrow lubricant that one can use. The cheapest arrow lube is a bar of Ivory soap and it works very well when applied to the front of the arrow.

Hope to see you on the course and may your arrows fly true, Al Keeler

## **Youth Archery Fun Shoot**

**Saturday May 7 2016 @ SPFGA Clubhouse**

For More Information Contact: Sandra George and Trisha Martinez

## Membership Report

### Deanna Loewen

To date, we have 4,930 memberships, the majority of which is dependents.

We were sold out of Range and Family Range memberships on January 1, 2016. Jim Clarke is conducting range orientations until the last Sunday in April and has about 100 orientations left to complete.

- Membership renewal notices for 2017 will be mailed on September 12, 2016 to the last known address.
- Membership renewal applications must be received by December 1st, 2016.
- Renewal applications can be sent by email, Canada Post or fax. The renewal notice will give details for online payment.
- Email Address: \_\_\_\_\_
- Mailing address:
- Fax number:

If you have any questions regarding membership, please call the office phone 780-910-4248. We will not accept new membership applications until January 1, 2017.

#### Gate Access Card

You must swipe your access card to enter and exit the range facility.

Remember: If you follow someone into the range facility or follow someone leaving the range facility, you still have to swipe your access card to enter and exit the range facility.

If you do not swipe your access card to exit, our system still thinks you are at the range facility, so when you go to the range again, you won't get into the facility. Here's what you have to do:

1. Go over (or under) the gate and swipe your access card to open the gate.
2. Close the gate but do not drive your vehicle into the facility.
3. When you are at the entrance, swipe your access card to unlock the gate
4. Open the gate and drive your vehicle into the facility

Sign-in Book: Members are required to sign membership number, date, time of arrival and departure.

# 2016 Awards Night Banquet

This years Awards night was a success with an attendance of ~ 150 persons. Jack Graham once again did an excellent job as the Master of Ceremonies for the evening. The meal prepared by the German Cultural Center was excellent. Thanks to the trophy sponsors for their support and donors who provided a wide range of items for the silent auction and raffle draws. The winning trophies for this year were very impressive. The Master Hunter Award went to Craig Temple who won the typical whitetail, elk, County of Strathcona, Largest Big by Archery trophies and the Wildlife and Scenic photo contests.

## 2015 Merit Award Winners

Merit Awards are granted to members who have contributed significantly to the improvement of the Association and displayed a positive attitude and willingness to be involved in the Association's activities. Merit reward recipients for 2015 are: Garnet Anthony, Gaetan Richard, Sean Oatway, Elaine Xenos and Tassi Xenos. These awards were presented by Gary Chambers (2015 President) and Steve Witiuk (Awards Chair).

- Garnet is a long time member who was strongly involved in the development of black powder shooting and the black powder trail. He also volunteers time representing the Association at the Sportsman and Boat show and spring and fall events at Cabelas.
- Gaetan is also a long time member in the Association serving as the Special Projects Chair on the Executive. Many of the recent developments at the range property such as the new 50 meter handgun range, upgrading of the campground were the result of Gaetan's planning and commitment to the Association.
- Elaine's contributions to the Association are amazing as she caters the meals for the Executive Barbeque, the Annual Spring Range Clean up, the Fun Shoot and other events such as the recent Norm Honish Memorial Celebration.
- Tassi is strongly involved in the planning and execution of black powder events and maintaining the black powder trail and helping Elaine
- Sean assisted Keith Lacey at the weekly trap shooting which required him to be at the range every Wednesday evening and Sunday afternoon from May to September.

Left to right: Gary Chambers, Gaetan Richard, Elaine Xenos, Tassi Xenos and Steve Witiuk.

# 2016 HANDGUN SHOOTING EVENTS

**Handgun shooting events for 2016 are as follows:**

**May 15 - 22 Rim fires Bulls Eye Competition—10:00 AM to 12:00 AM**

## 22 rim fire bulls eye competition

Slow fire and Rapid Fire —Time for each string is as follows:

Slow fire: 10 round for 10 rounds - shoot 5, reload, shoot a second string of 5

Timed Fire: 20 seconds for 5 rounds, reload, shoot a second string of 5

Rapid Fire: 10 seconds for 5 rounds, reload, shoot a second string of 5

Paper targets only, supplied, \$5:00 entry fee to be used as prize money to the best top 3 scores.

**June 5 Fun Day Shoot - Starting Time 10:00 AM—12:00.**

Use the calibre of your choice. Hope to have a variety of targets which are still being decided on.

- No holsters allowed for either event.
- **Please notify the handgun chair is you are going to attend (** or

Bring lots of ammunition for both events. I will have firearms on hand as loaners if needed.

Don't forget the Fun Shoot scheduled for August 13.

## Jerry Purpur—Hand gun Chair

# Spring Black Powder Shoot

## Edmonton House Brigade

**Sponsored by Sherwood Park Fish & Game, presents the  
Sixth Annual Skills of the Fur Trade Challenge  
May 28<sup>th</sup> & 29<sup>th</sup> 2016**

### Challenges

1. Muzzle loading Rifle [patched round ball open sights only]
2. Muzzle loading Trade Gun [patched round ball, smoothbore flintlock, no rear sight]
3. Combination event – Rifle Saturday / Trade Gun Sunday
4. Junior muzzle loading rifle [16 years and younger, patched round ball open sights].
5. Muzzle loading Pistol or cap and ball revolver.
6. Knife and Tomahawk
7. Primitive Bow
8. Center Shot rifle, center shot smoothbore, center shot pistol (tie breaker target)
9. Reenactment of an 1805 Canadian fur trade camp.

### Prizes & Awards

Prizes will be given for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place finishes for events 1-7.

The Center Shot event will have a first prize only for each category. Combination shooters will shoot the center shot with their rifles Saturday.

A prize for the best 1805 Canadian fur trade camp.

### Random Draw Cash Prize

Cash draw prizes will range from \$5 to \$100.

Every registered contestant will receive a cash prize.

50% of total entry fees collected to be awarded in cash prize draws to registered contestants only.

# Black Powder Shoot .....continued

## Fire prevention / 5 second patch lube test

A small propane torch ( the type used to solder copper pipe) is needed for this test. Lube a patch & hold it at the tip of the flame for 5 seconds. If the patch does not start to smolder , this patch / lube combo can be used on trail walk. Check your patch / lube before coming to our shoot. We will be testing.

## Liability Insurance

All shooters are welcome to this shoot, but all shooters must have their own liability insurance. Shooters can get insurance by joining the Alberta Fish & Game Association or The National Firearms Associations. Both of these organizations are worthy of our support.

## Location / Directions

The shoot will be held on the Sherwood Park Fish & Game Range. For direction check the Sherwood Park Fish & Game website.

## Other Information :

Primitive camping will be located behind the clubhouse. Vehicles need to be moved outside of camping area once setup is completed.

Tin Tee-Pee camping will be located on the shot gun range & in front of the clubhouse.

Campsite will be open from May 27 at Noon, till 9am on May 29.

Traders welcome.

Supper with all the fixings will be provided Saturday evening for all registered shooters & paid non shooters. Please bring your own plates, cutlery and mug wipers. (napkins for those more sophisticated folk)

Supper for non-registered shooters will be available at a cost of \$10.00 each.

Bring your own water.

Pets welcome but please note all dogs must be on leashes at all times.

Please be courteous with the use of your generators. Restrict there use between 9 AM to 8 PM.

Ladies interested in sewing are invited to sew at the clubhouse.

Please RSVP by May 21 2016, to help us confirm how much food will be needed.

Contact: Elaine Xenos @

Ken Steinhauer@
